JUAN ANTONIO ALONSO LIMA

Machine Learning & MLOps Internship

Madrid, Spain | jaalonsolima@gmail.com | +34 681 10 34 24
linkedin.com/in/juanan-alns | github.com/JuananAlonso

EDUCATION

Universidad Complutense de Madrid (UCM)
B.Sc. in Data Engineering and Artificial Intelligence | Sep 2024 – Jun 2028 (Expected)
GPA: 8.79/10

TECHNICAL SKILLS

Languages: Python, SQL, Java, C++
Machine Learning: scikit-learn, XGBoost, LightGBM, pandas, NumPy, Weights & Biases
ML Engineering: MLflow, pytest, GitHub Actions, Git, FastAPI, MinIO, Docker/Podman

SELECTED PROJECTS

IgnisAI — Wildfire Risk Prediction

Academic team project | Python · XGBoost · pandas · asyncio/aiohttp · Weights & Biases

- Developed XGBoost workflows for 73,324 geospatial observations with 2.76% positive cases; model evaluation achieved up to 0.948 ROC-AUC.
- Implemented Bayesian hyperparameter search and configurable decision thresholds; used temporal holdout and cross-validation to evaluate imbalanced wildfire data.
- Refactored sequential environmental-data extraction into an asynchronous Python pipeline with bounded concurrency and retries; estimated throughput improvement: ~18×.

ModelOps — Reproducible ML Workflows

Personal project | Oct 2026 | Python · scikit-learn · LightGBM · MLflow · SQLite · pytest

- Built reproducible baseline and LightGBM training pipelines with shared data splits, dataset fingerprints, configuration records and persisted evaluation artifacts.
- Integrated local MLflow Tracking and Model Registry; added pytest checks for recovered-model prediction consistency and GitHub Actions for lint, tests and package builds.

Chavales Legales — Visual Novel Demo

Hackathon prototype | Oct 2026 | Interactive storytelling · AI-assisted development · Remote deployment

- Used AI agents to build choice-based visual novel interactions, develop the script and character sprites, and debug and refine the visual presentation.
- Deployed the playable prototype on a remote UCM server; designed the demo for young people involved in judicial proceedings.

AWARDS & LEADERSHIP

DATAthon Justicia 2026 — Most Innovative Solution Award | UCM team, Chavales Legales

ADOFI — Co-founder & Workshop Instructor

- Co-founded ADOFI, a university public speaking and debate association; deliver public speaking and debate workshops.

Competitive Debate

- Competed in 20+ debate tournaments and reached two Spanish national league finals; served as team captain and judged British Parliamentary debates.

LANGUAGES

Spanish: Native | English: C1 | French: B2 (certified)
